Mischa Hartmann

DATA SCIENCE & AI STUDENT

mischa.hartmann@students.fhnw.ch · Switzerland · github.com/mischhart-bsc

EDUCATION

2025 – present	**BSc Data Science & AI**, FHNW (Brugg-Windisch)
2023 – 2025	**BSc Mathematics**, ETH Zurich
2018 – 2022	**Matura (Gymnasium)**, Kantonsschule Solothurn Focus on mathematics and physics

GOAL

Machine learning, high-performance computing and deep learning.

SKILLS

Programming
Python, R, C++

Databases (SQL / NoSQL)
MySQL, MongoDB, Neo4j

Data and methods
Data preparation, visualization, programming algorithms

Languages
German (native), English (fluent), French (basic)

SELECTED PROJECTS

- **Seismic & Tsunami Risk Assessment**: geovisualization of large earthquakes and plate boundaries (Python, GeoPandas)
- **Covid-19 Spread World Map**: interactive dashboard with Dash and Plotly
- **Seismic Signal Processing**: sampling, correlation and Wiener filtering of an earthquake record
- **Pacman Search Optimization**: binary heap, Dijkstra and A* implemented from scratch
- **Portfolio Website**: Next.js and Django versions

All projects: github.com/mischhart-bsc
